Global Wombat Shatterproof Drinkware Features

- Global Wombat Shatterproof drinkware is manufactured from Polycarbonate. Used in many applications polycarbonate is known for its stability under extreme loads and in many cases has had the term “un-breakable” applied to it.
- Has a temperature range from -10° C to +100° C
- Is a fantastic insulator and will keep hot drinks hotter and cold drinks colder for longer than its glass equivalent.
- Unlike many plastics it is both odor and stain resistant.
- For applications such as hospitals and nursing homes its lightweight makes it the ideal product for those who find it difficult to grasp or hold heavy drinkware.

Applications

Some of the areas where you can find the Global Wombat range of products

Pools	Resorts
Cafeterias	Nightclubs
Pubs	Mining Camps
Nursing Homes	Hospitals
Day Care Centres	Festivals
Hostels	Prisons

Or in any situation where personal safety is paramount

Product Care

Global Wombat drinkware is dishwasher safe however, to keep it looking good and have it perform to expectations we ask that the following steps are observed:

- In the dishwasher use only the recommended cleaning agent.
- If the product is to be washed in a commercial dishwasher please ensure that the dosing system is set for polycarbonate / plastic drinkware
- Do not use pre-soaks as they are detrimental to polycarbonate as well as many other plastics.
- Use only mild cleaning solutions and do not use abrasive pads or scourers to clean the product

Polycarbonate Shatterproof Drinkware

GW084600C

230ml / 8oz Paradise Rocks

Case Quantity 100

Case Volume 0.035m³ / 1.23ft³
